2010 White Center Ambassador Application

1,000 – 1,500 Word Essay

How will diversity and technology effect our work environments in the future?

Imagine you're in the year 2050; you will be around 57 years old and looking to retire. Imagine what you have seen as far as advancements in technology and working environments. Imagine the people you have worked with and the diversity of your work group. Describe the career you have chosen and the typical work day for you. Describe the changes you have overcome and the effect they have had on you. Tell us how you have evoked change in a positive way and what the result has been for your peers and your community.
